GENIAN

BUBBLE COLLAGEN MASK 90ml

| 3-Second All-in-One Collagen Mask

Lightweight, sheet-free elasticity care in a bubble mask	300Da Fish Collagen, Marine Elastin, 8-Layer Hyaluronic Acid Complex, Niacinamide, Pink Vitamin(Vitamin B12)
Ready in just 3 seconds	NO WAITING
Ultra-close skin adhesion	NO LIFTING, NO GAPS
Equals 90 sheet masks	IN ONE BOTTLE
Outperforms traditional sheet masks	LASTING HYDRATION*

*Testing in progress

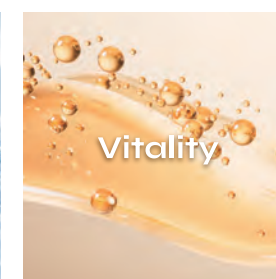

**300Da Fish Collagen
× Marine Elastin**

A dual-action firming system: collagen helps restore skin density from within, while elastin supports visibly firmer-looking skin.

**8-Layer Hyaluronic
Acid Complex**

An eight-layer hydration system delivers long-lasting moisture to deeply hydrate the skin.

Niacinamide

Awakens dull skin and energizes the complexion with a boost of skin vitality.

**Pink Vitamin
(Vitamin B12)**

Evens skin tone and enhances your skin's natural radiance from within.

GENIAN
BUBBLE WHIP SUN MOUSSE
SPF50+ PA++++
100ml

GENIAN

BUBBLE WHIP SUN MOUSSE 100ml

SPF50+ PA++++

| 3D GLOW SUN MOUSSE

Lightweight sun protection in an airy mousse, with no white cast	Centella Asiatica Extract, Niacinamide, Adenosine, Glutathione, Acetyl Hexapeptide-8, Pear Fruit Extract, Limonia Acidissima Extract, Cucumis Melon Seed Extract, Hedrera Helix(Ivy) Leaf/Stem Extract, Rosa Damascena Flower Water, Orris Root Extract
A multidimensional glow that enhances the skin's natural radiance Enriched with niacinamide, glutathione, adenosine, and acetyl hexapeptide-8, it hydrates the skin and leaves a luminous, non-sticky finish.	Streamlined Skin Care — Simple, Effective, Complete Skip the full skincare routine — toner, lotion, ampoule, cream. Skip the white cast and clumping — quick, clean application. Skip double cleansing — washes off easily with water. One step is all you need.

Skin irritated by UV rays due to insufficient sun care

The diagram illustrates a cross-section of skin with a sun icon and red arrows representing UV rays penetrating the skin layers, causing irritation.

Barrier Support with centella asiatica

The diagram shows a cross-section of skin with a sun icon and a blue arrow representing the protective barrier formed by Centella Asiatica, preventing UV rays from penetrating.

Before

A thermal image showing skin temperature before application, with a central reading of 36.80°C.

After

A thermal image showing skin temperature after application, with a central reading of 31.90°C.

Before **After**

Two side-by-side close-up photographs of a person's face. The 'Before' image shows skin with some redness and uneven texture, while the 'After' image shows skin that is more hydrated, smooth, and has a natural glow.

Before **After**

Two side-by-side close-up photographs of a person's face. The 'Before' image shows skin with some redness and uneven texture, while the 'After' image shows skin that is more hydrated, smooth, and has a natural glow.

1cc (3%)

TISSIVO

Advanced ECM Therapy for Skin Repair & Tissue Regeneration

The Only Structural Solution Naturally Accepted by the Human Body

Human-Derived Structure Reflecting Native Dermal Architecture

A human-derived ECM closely reflecting the native structure of human skin.

Lower Inflammation, Stronger Tissue Integration

Allogeneic dermal matrix shows lower inflammatory response and enhanced collagen and fibrous tissue formation versus xenogeneic dermal matrix.

hADM (Human Acellular Dermal Matrix)

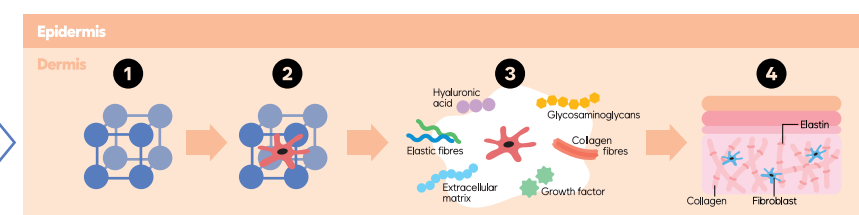

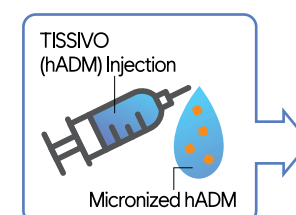

Micronization Technology

Human-derived ECM micronized to an average particle size of 17 μm , designed to enhance injectability and procedural comfort.

*Compatible with 34G needles

Tailored to Practice

Available in powder and liquid formulations for flexible use across clinical needs.

1 Scaffold Placement

3D dermal scaffold formation with immediate structural support.

2 Host Cell Infiltration

Host cell migration and stable matrix integration.

3 Cellular Activation

Increased cellular activity and ECM reorganization.

4 Remodeling & Biological Integration

Progressive remodeling with vascularization and tissue stabilization.

[TISSIVO Powder Type]

The Concentrated Matrix

- Pure lyophilized tissue matrix
- Customizable concentration through reconstitution immediately prior to use
- Delivers active components in a fresh, highly concentrated state
- High-end matrix formulation designed for professional procedures

[TISSIVO Liquid Type]

The Ready-to-Use Solution

- Ready-to-use prefilled liquid formulation
- Consistent viscosity for predictable application
- Reduced contamination risk by eliminating reconstitution steps
- Designed for procedural convenience and time efficiency

MIRACOLL

MIRACLE OF COLLAGEN

IN SKIN 1ml/syr

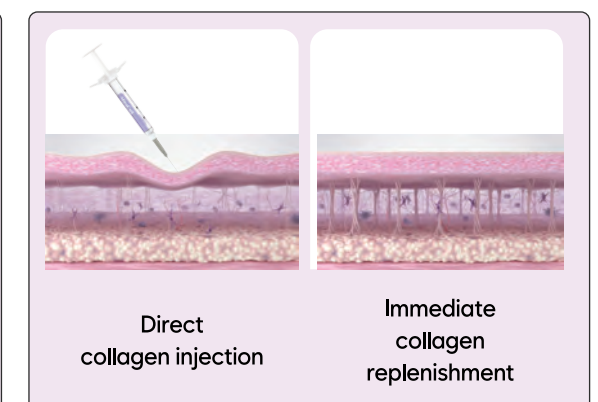

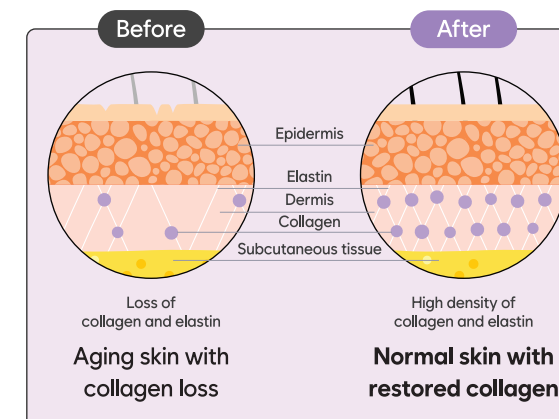

MiraColl is a collagen-based tissue supplement containing 3% atelocollagen as its primary component

Atelocollagen 3% (Type I collagen)

- 99.9% high-purity collagen, manufactured in Korea
- A collagen supplement that is directly injected for immediate results
- Removal of telopeptide regions associated with immunogenic reactions
- A neutral, soft collagen formulation designed to minimize procedural discomfort

Safety

MiraColl is manufactured using low-temperature processing and multi-stage filtration without heat treatment, helping reduce immunogenic components.

Durability

MiraColl strengthens the collagen matrix in the skin through sustained fibroblast activation, resulting in long-lasting effects

Immediate collagen replenishment Increased ECM

Cell proliferation Fibroblast activation Autologous collagen production

Collagen matrix reconstruction Skin regeneration
Volume enhancement

S AMPOULE 5ml*5vial

ECLAFIN

M AMPOULE 5ml * 5 vial

- | Skin Type : Dry skin, dull and rough skin
- | Product Benefits : Radiance, Hydration, Anti-wrinkle, Brightening
- | Feature : HA Transome, a component for radiant and moisturized skin, is infused with skin penetration technology
- | Key Ingredients
 Anti-wrinkle : Peptides (15 types), Amino Acids (17 types), Adenosine
 Hydration : Sea Water, Sodium Hyaluronate, Pearl Extract, Hydrolyzed Collagen
 Brightening : Niacinamide

V AMPOULE 10ml * 5 vial

- | Skin Type : Sagging skin, double chin
- | Product Benefits : Firming & lifting, Circulation boost, Pore tightening
- | Feature : VEGF, a component that improves blood flow and elasticity, is infused with skin penetration technology
- | Key Ingredients
 Firming : Sodium Deoxycholate, L-Carnitine, Caffeine
 Hydration : Aesculus Chinensis Seed Extract, Betula Platyphylla Japonica Leaf Extract, Liriope Muscari Root Extract, Juglans Regia (Walnut) Extract

P AMPOULE 5ml * 5 vial

- | Skin Type : Aged skin, damaged skin
- | Product Benefits : Anti-aging, regeneration, volumizing
- | Feature : SOD1, an excellent antioxidant, is infused with skin penetration technology
- | Key Ingredients
 Regeneration: Sodium DNA, Acetyl Hexapeptide-8
 Volumizing: Anemarrhena Asphodeloides Root Extract (containing Volufilline)

S AMPOULE 5ml * 5 vial

- | Skin Type : Dull skin, Pigmentation
- | Product Benefits : Brightening, nourishing, revitalizing
- | Feature : Trx, an excellent ingredient for skin brightening and antioxidation, is infused with skin penetration technology
- | Key Ingredients
 Brightening: Tranexamic Acid, Glutathione
 Nourishing: 9 essential amino acids (e.g., Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine)
 Revitalizing: 6 essential vitamins (commonly: Vitamin A, B3, B5, B6, C, E)

Special Technology

Innovative technology* that delivers key active ingredients deep into the skin in a short period of time

*MTD (Macromolecule Transduction Domain) skin delivery technology

EXANEL
5ml

EXANEL

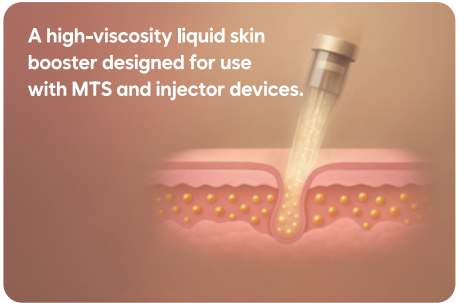

THE GLASS SKIN CARE SOLUTION 5ml / vial

Powered by Golden Core, Perfected with Pink Elegance	Cicasome, Multi Hyaluronic Acid Complex, BIO-EGF 1H, Collagen, Sodium DNA, Glutathione, Panthenol, 11-Type Vitamin Complex
Cica-Derived Vesicles Inspired by Exosome Science EXANEL contains cica-derived vesicles with nanoparticle structures inspired by human exosomes. Designed for skin compatibility, they help support skin vitality, reinforce the skin barrier, and soothe sensitive skin.	The Pink Formula of Luxury and Glow Elegance Pink features a luxurious blend that moisturizes, refines skin texture, firms, and revitalizes, revealing the skin's natural radiance.

MTS-Specialized Formula

A new paradigm in skin boosters, designed specifically for MTS.

AUTOLOGOUS STEM CELL CONCENTRATION KIT

ONE SHOT, ALL HEAL

The Most Powerful and Natural Solution for Health and Beauty

What Are Stem Cells?

Cells within the human body that have the regenerative ability to restore damaged cells and tissues to their original function.

Stem Cell Biologics Concentration

Homing Effect

When injected into the bloodstream, stem cells can migrate to the site of tissue damage and promote repair by targeting the affected area.

Self-Renewal

Stem cells have the ability to reproduce themselves into identical cells with the same characteristics and functions.

Differentiation

Stem cells have the potential to transform into various types of cells and tissues required by the body, depending on physiological needs.

IV Therapy

Skin Booster

Scalp Booster

Health

Enhances immunity, reduces inflammation, and activates self-healing.

Immune Regulation / Overall Wellnes

Promotes nerve and muscle regeneration, improves circulation, and relieves pain.

Chronic Pain Relief

Repairs damaged tissues, strengthens surrounding areas, and restores function.

Wound / Tissue Regeneration

Beauty

Anti-Aging

Boosts collagen and skin elasticity to reduce aging signs.

Skin Aesthetics

Evens skin tone, improves wrinkles, and hydrates skin.

Hair Loss Management

Strengthens roots and stimulates natural hair growth.
